

You need to count the number of digits in a given string.

**Input:** A Str.

**Output:** An Int.

**Example:**

```
1 count_digits('hi') == 0
2 count_digits('who is 1st here') == 1
3 count_digits('my numbers is 2') == 1
4 count_digits('This picture is an oil on canvas '
5 'painting by Danish artist Anna '
6 'Petersen between 1845 and 1910 year') == 8
7 count_digits('5 plus 6 is') == 2
8 count_digits('') == 0
```
